

NOTICE TO HARNESS RACING PARTICIPANTS

RE: Scratching certificates after acceptances and race day embargos.

It is a requirement that any veterinary certificate issued for a horse that has been scratched after final acceptances have been declared or have been stood down from racing pending a veterinary clearance must include the following;

- 1. Name of the horse**
- 2. Description of the horse**
- 3. Freeze brand**
- 4. Date and time of inspection**
- 5. Trainers name**

Trainers must provide the veterinarian undertaking the examination of the horse with the assessment card at the time of inspection.

A veterinary certificate received by the Office of Racing Integrity Tasmania without the above requirements may result in the certificate not being accepted or processed.

David Farquharson

Acting Chairman of Stewards - Harness Racing
