

Dr Katrina Ward

I will be submitting a case for the inclusion of the word sentence in another submission. This is to be an overarching consideration for welfare of all animals.

"Section 8 (i) change this to ""applies or exposes an electronic device directly to an animal"" (remove all the rest as this seems to be accepting the use of these devices in other practices outside of sports or public performances)

Section (j) add ""or prong collar"" and give definition"
