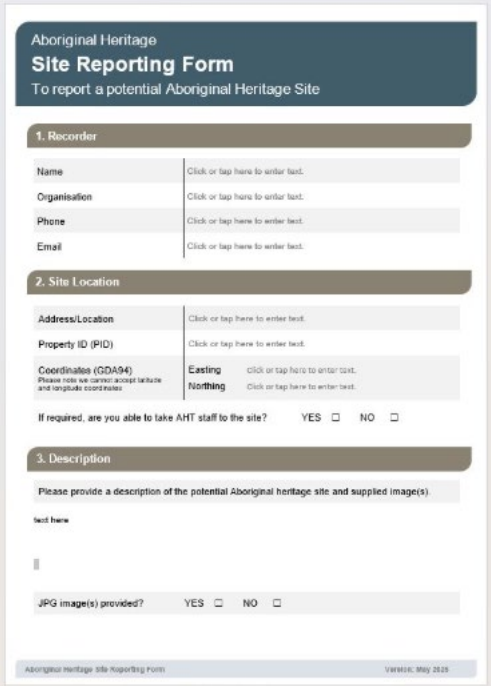
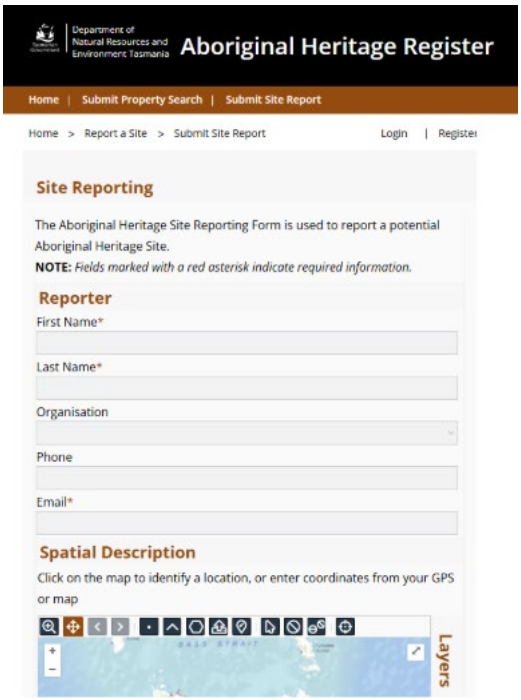
What's Changed?

Previously, applicants had to fill out multiple forms and email them to Aboriginal Heritage Tasmania. The new Aboriginal Heritage Register is a modern, fit-for-purpose online register that replaces the existing form-based process and integrates with the Aboriginal Heritage Property Search website. This new register provides a more robust and efficient system for Tasmanian Aboriginal heritage information access and management.

Forms

Word forms have been replaced with tools in the new online register. In many cases, this is a digital version of the old form, asking you for the same information.





Site Recordings

The **Submit a Site Recording** tool allows you to include more detail than the old Site Recording Form.

Property Search Website

The Aboriginal Heritage Property Search website has been moved into the new register. You do NOT need to create an account or log in to use the **Property Search** tool.

Forms are now tools

Word forms that have been replaced with tools in the new register may have a different name.

OLD FORM		**NEW TOOL**
Site Reporting Form		**Report a Site**
Desktop Review		**Request for Advice**
Search Request		**Request for Data**
Community Request		**Request for Data**
Research Request		**Request for Data**
Consultant's Aboriginal Heritage Assessment Report (emailed/dropboxed to Aboriginal Heritage Tasmania)		**Submit an Assessment Report** *(Consultant's report is uploaded as a document)*
Permit Application		**Submit a Permit Application**
Site Recording Form		**Submit a Site Recording**
