

Be aware of bird flu

TASMANIAN

BIRD FLU

PREPAREDNESS

Bird flu, also known as avian influenza, can cause disease and death in birds and wild mammals.

Do not touch sick or dead birds or other animals.

Report large numbers (more than 5) of sick or dead birds or other wildlife.

Record:

- The type of animal
- Location
- What you see
- The number of animals
- Time and date
- Take photos or videos if possible

Phone the **Emergency Animal Disease**
hotline on **1800 675 888**
