preface

This standardised list of common plant names will enable consistency of use in departmental publications, such as interpretation literature, databases and other documents and signs prepared for the public. The list and the thinking behind its rules are published so anybody can see how it evolved in a thoughtful and considered way. It will also be useful for others who want a source of standard common names for Tasmanian plants.

Many clients of this Department have expressed a strong desire for this publication. However the list will no doubt engender strong feelings amongst some and complete disinterest amongst others. Some scientific plant taxonomists for example abhor common names because such names lack scientific integrity whilst the local field naturalist or nurseryman may use mainly common names as this is how they relate to the plants. There would be much less ambiguity if everyone used current scientific names, but this is unlikely ever to happen. Many people feel much more comfortable using names that are explicitly “common” regardless of whether these are still actually Latin words or much stranger words or phrases.

In pastoral and agricultural spheres, the consequences of inconsistent common names for economically important plants were pointed out by CSIRO in a 1953 publication. A comprehensive list has been prepared of New Zealand plant common names and is an exercise similar in scope to this present work. Standardised common names were recently prepared for sea fishes in Australia because there had been marketing problems caused by the sale of fish under different vernacular names.

The compilation of this list is a commendable achievement by the authors. A work like this cannot draw on rules as universally accepted as those of the International Code of Botanical Nomenclature are, so a new set of criteria was devised. This publication will support consistency based on these criteria.

Stephen Harris
Principal Botanist
Department of Primary Industries, Water and Environment.

acknowledgements

The project to produce a checklist of common names for all Tasmanian plants began a number of years ago when one of us (HW) was still working in the Biodiversity Conservation Branch of the Department of Primary Industries, Water and Environment (DPIWE). We thank Stephen Harris, Principal Botanist, for his foresight and his continuing encouragement to see it through to completion.

The checklist draws on an informal list of names for native plants in use by the Biodiversity Conservation Branch, which in turn was based on a database compiled by Alasdair Wells and others many years before, and added to by Renee Nicholson. A database of names for introduced plants was maintained by Tim Rudman. We take our hat off to all those who have laid the base for the present product.

Our special thanks go to a number of people who commented on various drafts and provided much assistance. They are Will Fletcher of the Tasmanian Plant Nursery who has a particular interest in common plant names because of his customers, Andrew North of North Barker Ecosystem Services who has a similar need in serving his clients and Alan Gray of the Tasmanian Herbarium.

We thank the people we consulted for special groups, including Marco Duretto (*Boronia*) and Jean Jarman (*Epacridaceae*) of the Tasmanian Herbarium, Wendy Potts (*Euphrasia*) of the Threatened Species Section of DPIWE and Michael Garrett (*Pteridophyta*).

introduction

Botany is of interest to a large number of people, the majority of them amateur botanists, people in the landcare movement, land managers such as foresters and farmers, or just people who like the bush and want to know the name of plants they find. They use common names because they can get their tongue around them. The world of botany cannot do without the professional botanists and taxonomists but it is also inhabited and enriched by a vast number of non-professionals. They may not have been educated in classical Latin or Greek nor done a botany course at university. For them scientific plant names may appear intimidating.

This booklet provides *preferred common names* for all Tasmanian vascular plants, including introduced plants. A scientific plant name applies to a single species and the allocation of names is bound by a strict set of internationally accepted rules. Common names are not subject to such rules and are often imprecise, sometimes confusing. Many plants are known by different names in different parts of Australia, which may differ again from those in other parts of the world. A common name may apply to more than one species as is quite often the case when a species is split and the old common name is used for the new species as well. In some cases the same common name may apply to plants that are unrelated and do not even look similar.

In selecting the preferred common name we have referred to numerous botany books from Tasmania and other States, where necessary other countries. In addition, the internet has been a surprising resource. We have strived for consistency, at least within Australia. We have maintained most names in use in Tasmania but there are a few exceptions where the plant was widely known by another name in a number of other States.

Quite a number of plants did not have a common name. Our starting point has been that *all plants deserve a common name*. We have had many interesting discussions on this point. Some botanists feel strongly that names should not be made up because that is against the basic principle of a common name. We do not agree. If a common name has not come up naturally in the last 100 years, it is not likely to happen soon. Almost by definition, a common name will only arise naturally for common plants, not for uncommon plants that are only ever encountered or recognised by a handful of people. Other botanists feel that common names are confusing and people should be educated to use the precise scientific names. We feel that this has largely failed in the past and is not likely to change in the future. A few botanists, especially those with a taxonomic bent, are simply not interested in thinking about common names as they are not used in their profession. The taxonomist who describes a new species has just explored the characters that distinguish it and has given the plant a scientific name that probably reflects a key character. Who better placed to allocate a nice descriptive common name as well? It is pleasing to note that some taxonomists are now doing this.

What about all the other common names? They continue to exist and there is no law against them. We have listed only the preferred common names in this booklet to encourage the use of a single name in Tasmania and avoid the confusion that comes with perpetuating other names. These will be included in a larger book, together with their history and derivation, as well as the etymology and pronunciation of scientific names.

The species listed in this checklist are in accordance with the electronic 2005 version of A.M. Buchanan, *A Census of the Vascular Plants of Tasmania*, Tasmanian Herbarium, available from the Tasmanian Museum and Art Gallery website at www.tmag.tas.gov.au.

A useful companion to the checklist is an electronic dictionary that can be downloaded from www.dpiwe.tas.gov.au/plants. When installed on your computer, it will check and correct the spelling of scientific names in your documents. It also contains all common names that the more conservative dictionaries in your computer might flag as incorrect (e.g. *riceflower*).

guidelines

In selecting a preferred common name we have applied a number of “rules” as consistently as possible. We commend them to others as a guide when describing a new species or when an existing species is discovered in the State for the first time and a common name has to be selected.

Binomial names

A common name should be binomial just like the scientific name (*Hydrocotyle hirta* = hairy pennywort). Where possible, the generic common name should apply to all species in that genus (all *Hydrocotyle* species are pennywort), especially if they share a common feature that is reflected in the name. It does not always work, for instance, it would not be sensible to rename *Acacia melanoxylon* a wattle because blackwood is a good and long-established name. Trinomial names can be appropriate for subspecies and varieties.

Hyphens

Hyphens should be avoided where possible. The use of hyphens to separate or join words in the English language is subject to continuous and rapid evolution, as can be noticed daily on television and in the printed word. The use of hyphens in plant names has gone the same way, as is obvious from the inconsistencies between the different books we consulted. Inconsistency is often found within the one book or list, probably because some of the names were simply copied from other sources.

a. The *Australian English Style Guide* states that compound nouns can be left spaced except when the second noun is a common and general word that depends on the preceding qualifying word for its specificity. In other words, *rice flower* should not remain spaced but should be joined to become *rice-flower* or *riceflower*.

- b. The *Style Guide* also observes that compound nouns begin life spaced (e.g. *wood rush*), then become hyphenated (*wood-rush*) and finish up as solid words (*woodrush* as is now commonly used). The more commonplace the word is, the quicker it goes through this cycle. Nobody now spells jellyfish other than as one word.
- c. A common editorial policy is that consistency is best achieved by advancing remaining hyphenated names to solid (*riceflower*), which they would become over time anyway.
- d. The same considerations apply to descriptive prefixes like *black-fruited* as opposed to *blackfruit*. The latter application has gained wide acceptance and is followed here.
- e. Exceptions are unavoidable where a word becomes hard to pronounce, for instance, when letters collide (e.g. *small-leaf*, *mouse-ear*), although we note that in America *mouseear* chickweed is already accepted.
- f. Another exception concerns the large group of orchids, which have traditionally been spaced words (*sun orchid*) in Tasmania. Solid names worked well for some but not others, so for the sake of consistency within the group we opted for the more conservative hyphenated form (e.g. *sun-orchid*) widely used in other States.

The hyphen issue has been the subject of much discussion. It is encumbered by tradition, personal likes and dislikes, and some strong views. However, whether we like it or not, the changes are happening, pushed along at very rapid pace by the internet that seems to join anything and everything. Some names may look a little strange at first but this wears off quickly. Possible ambiguity (*clubsedge*) is hardly likely to arise in a text about plants.

Another example is *forgetmenot*, which was a problem until we discovered that it was already just as common as the hyphenated form. Predictably, *forget-me-not* will raise eyebrows in a few short years.

Apostrophes

Apostrophes should be avoided. They are an unnecessary nicety that is facing a losing battle in the English language generally. Apostrophes are frequently misplaced and do not assist in reading a name correctly. The world of cartography has long dropped them and nobody has a problem with Archers Lane or Sullivans Cove.

Capitals

Capitals should not be used for plant names. Again, we have followed the *Australian English Style Guide*, which specifically states that common names for flora and fauna should not be capitalised. Thus, we encourage lower case for plant names (*velvet boronia*, *silver banksia*) in texts and lists.

The *Style Guide* further states that eponyms (named after people or places) do not need to be capitalised because they work as common nouns, e.g. *banksia*. In other names they may have become a simple byword (*milligans* snowgentian) where an already tenuous connection with Joseph Milligan has long been lost. Similarly, geographical prefixes in plant names (*african*, *australian*) have become simple bywords. We no longer think of Malta when referring to the malta thistle.

Descriptive names

Where possible, a common name should say something about the plant. We have attempted to select descriptive names.

Anglicised scientific names

Such names are not descriptive and often become confusing due to taxonomic changes. Mountain cotula may not have been the best choice for *Cotula filicula*, but it was acceptable until the species was placed in the genus *Leptinella*. There are numerous other examples. As common names tend to persist regardless of taxonomic changes, it is best to avoid anglicised generic names entirely.

People and places

Taxonomists often name a plant in honour of a person or to thank a person (*Boronia paulwilsonii*). To translate such a name into a common name is not helpful as it is not descriptive of the plant. In many cases it would be inappropriate as well because often the person concerned does not have a direct link with the plant. Locality names should also be avoided unless it is very certain that the plant is indeed confined to that place.

Common, native, austral

We have avoided *common* where it was misleading. Many of the plants that were so named are not common at all, and some are actually threatened in Tasmania. We have also tried to avoid *native* as it is often a misnomer going back to the days when wombats were called badgers, and sometimes misleading (*native gorse* is not a *gorse* and the name implies that it is a weed). The epithet *australis* is often translated into a common name with *austral*. Many users take *austral* to mean Australian and for this reason misspell it with a capital. It means *southern* (hemisphere usually) which should be the preferred term.

Weed

The term *weed* should be restricted to introduced plants and be avoided for natives. There are some exceptions where the name is descriptive and well-established, e.g. *fireweed*.

Checklist – *alphabetical*

e endemic to Tasmania
i introduced and naturalised in Tasmania
m occurs only on Macquarie Island
t within Australia only present in Tasmania
x extinct in Tasmania

e *Abrotanella forsteroides* tasmanian cushionplant
 e *Abrotanella scapigera* funnel snow-wort
 e *Acacia axillaris* midlands wattle
 i *Acacia baileyana* cootamundra wattle
 i *Acacia dealbata* subsp. *dealbata* silver wattle
 i *Acacia decurrens* green wattle
 e *Acacia derwentiana* derwent wattle
Acacia genistifolia spreading wattle
Acacia gunnii ploughshare wattle
Acacia implexa hickory wattle
 i *Acacia longifolia* subsp. *longifolia* sydney coast wattle
Acacia longifolia subsp. *sophorae* coast wattle
Acacia mearnsii black wattle
Acacia melanoxylon blackwood
 e *Acacia mucronata* subsp. *dependens* blunt caterpillar wattle
Acacia mucronata subsp. *longifolia* longleaf caterpillar wattle
Acacia mucronata subsp. *mucronata* erect caterpillar wattle
Acacia myrtifolia redstem wattle
 i *Acacia paradoxa* thorn wattle
 e *Acacia pataczekii* wallys wattle
 i *Acacia pycnantha* golden wattle
Acacia retinodes var. *uncifolia* wirilda
 e *Acacia riceana* arching wattle
Acacia siculiformis dagger wattle
Acacia stricta hop wattle
Acacia suaveolens sweet wattle
Acacia terminalis sunshine wattle
Acacia ulicifolia juniper wattle

Acacia verniciflua varnish wattle
Acacia verticillata subsp. *ovoidea* prostrate prickly Moses
Acacia verticillata subsp. *ruscifolia* broadleaf prickly Moses
Acacia verticillata subsp. *verticillata* prickly Moses
Acaena agnipila var. *aequispina* hairy sheepsburr
Acaena agnipila var. *tenuispica* hairy sheepsburr
Acaena echinata var. *retrorsumpilosa* spiny sheepsburr
Acaena echinata var. *subglabralyx* spiny sheepsburr
Acaena echinata var. *tylacantha* spiny sheepsburr
 m *Acaena magellanica* subantarctic buzzy
 m *Acaena minor* little burr
 e *Acaena montana* mountain buzzy
Acaena novae-zelandiae common buzzy
Acaena ovina var. *velutina* downy sheepsburr
Acaena pallida dune buzzy
Acaena Xanserovina hybrid sheepsburr
 i *Acanthus mollis* bears breeches
 i *Acetosa sagittata* rambling dock
 i *Acetosella vulgaris* sheep sorrel
 i *Achillea distans* tansyleaf yarrow
 i *Achillea millefolium* yarrow
 i *Achnatherum caudatum* espartillo
Achnatherum pusillum small mosquito-orchid
 e *Acradenia frankliniae* whitey wood
Acrotriche affinis ridged groundberry
Acrotriche cordata coast groundberry
Acrotriche serrulata ants delight
Actinotus bellidioides tiny flannelflower
 e *Actinotus moorei* splitleaf flannelflower
 t *Actinotus suffocata* crimson flannelflower
Actites megalocarpa dune thistle
Adiantum aethiopicum common maidenhair
 i *Adonis microcarpa* pheasants eye
 i *Aegopodium podagraria* goutweed
 i *XAgropogon littoralis* perennial beardgrass
 e *Agastachys odorata* fragrant candlebush

Checklist – *by family*

- e endemic to Tasmania
- i introduced and naturalised in Tasmania
- m occurs only on Macquarie Island
- t within Australia only present in Tasmania
- x extinct in Tasmania

Dicotyledonae

Dicots, plants with 2 seed leaves

ACANTHACEAE

- i *Acanthus mollis*

AIZOACEAE

- i *Aptenia cordifolia*
- i *Carpobrotus aequilaterus*
- i *Carpobrotus edulis*
- Carpobrotus rossii*
- Disphyma crassifolium* subsp. *clavellatum*
- i *Galenia pubescens*
- i *Lampranthus glaucus*
- i *Mesembryanthemum crystallinum*
- Tetragonia implexicoma*
- Tetragonia tetragonoides*

AMARANTHACEAE

- Alternanthera denticulata*
- i *Amaranthus albus*
- i *Amaranthus deflexus*
- i *Amaranthus graecizans*
- i *Amaranthus powellii*
- i *Amaranthus spinosus*
- Hemichroa pentandra*
- Ptilotus spathulatus*

Acanthus Family

bears breeches

Pigface Family

- heartleaf iceplant
- angled pigface
- yellow pigface
- native pigface
- roundleaf pigface
- carpetweed
- noonflower
- common iceplant
- bower spinach
- new zealand spinach

Pigweed Family

- lesser joyweed
- tumble pigweed
- spreading pigweed
- prostrate pigweed
- green pigweed
- spiny pigweed
- trailing saltstar
- pussytails

APIACEAE

- Actinotus bellidioides*
 - e *Actinotus moorei*

- i *Chenopodium vulvaria*
- Einadia nutans* subsp. *nutans*
- Rhagodia candolleana* subsp. *candolleana*
- i *Salsola kali*
- Sarcocornia blackiana*
- Sarcocornia quinqueflora* subsp. *quinqueflora*
- Sarcocornia quinqueflora* subsp. *tasmanica*
- Sclerostegia arbuscula*
- Suaeda australis*
- i *Suaeda maritima*
- Threlkeldia diffusa*

CISTACEAE

- i *Cistus inflatus*

- black sheoak
- necklace sheoak
- scrub sheoak
- drooping sheoak
- western sheoak

Goosefoot Family

- southern saltbush
- glistening saltbush
- grey saltbush
- garden orache
- marsh saltbush
- spear orache
- creeping orache
- berry saltbush
- sprawling saltbush
- copper saltbush
- sea beet
- fat hen
- papery goosefoot
- pale goosefoot
- nettleleaf goosefoot
- clammy goosefoot
- stinking goosefoot
- climbing saltbush
- coastal saltbush
- prickly saltwort
- thickhead glasswort
- beaded glasswort
- tasmanian glasswort
- shrubby glasswort
- southern seablite
- annual seablite
- coast bonefruit

Rockrose Family

- rockrose

CLUSIACEAE

- i *Hypericum androsaemum*
- i *Hypericum calycinum*
- Hypericum gramineum*
- i *Hypericum humifusum*
- Hypericum japonicum*
- i *Hypericum perforatum*
- i *Hypericum tetrapterum*

CONVOLVULACEAE

- Calystegia sepium*
- i *Calystegia silvatica*
- Calystegia soldanella*
- Convolvulus angustissimus* var. *angustissimus*
- i *Convolvulus arvensis*
- Dichondra repens*
- Wilsonia backhousei*
- Wilsonia humilis*
- Wilsonia rotundifolia*

CRASSULACEAE

- Crassula decumbens* var. *decumbens*
- Crassula exserta*
- Crassula helmsii*
- t *Crassula moschata*
- i *Crassula natans* var. *minus*
- Crassula pedicellosa*
- Crassula peduncularis*
- Crassula sieberiana* subsp. *sieberiana*
- Crassula sieberiana* subsp. *tetramera*
- i *Sedum acre*
- i *Sedum forsterianum*
- i *Sedum reflexum*
- i *Sedum sexangulare*

CUCURBITACEAE

- i *Cucumis myriocarpus*
- i *Ecballium elaterium*
- Sicyos australis*

St Johns-wort Family

- tutsan
- rose-of-sharon
- small st johns-wort
- creeping st johns-wort
- matted st johns-wort
- perforated st johns-wort
- square st johns-wort

Bindweed Family

- swamp bindweed
- great bindweed
- sea bindweed
- blushing bindweed
- field bindweed
- kidneyweed
- narrowleaf wilsonia
- silky wilsonia
- roundleaf wilsonia

Stonecrop Family

- spreading stonecrop
- largefruit stonecrop
- swamp stonecrop
- musky stonecrop
- floating stonecrop
- stalked stonecrop
- purple stonecrop
- rock stonecrop
- wiry stonecrop
- biting wallpepper
- rock wallpepper
- reflexed wallpepper
- bland wallpepper

Gourd Family

- prickly paddymelon
- squirting cucumber
- star cucumber

CUNONIACEAE

- e *Anodopetalum biglandulosum*
- Bauera rubioides*

CUSCUTACEAE

- i *Cuscuta epithymum*
- i *Cuscuta suaveolens*
- Cuscuta tasmanica*

DILLENIACEAE

- Hibbertia acicularis*
- Hibbertia appressa*
- Hibbertia calycina*
- Hibbertia empetrifolia* subsp. *empetrifolia*
- e *Hibbertia hirsuta*
- Hibbertia hirticalyx*
- Hibbertia obtusifolia*
- Hibbertia procumbens*
- Hibbertia prostrata*
- Hibbertia riparia*
- Hibbertia rufa*
- Hibbertia* aff. *rufa* "Pontville"
- Hibbertia sericea* var. *sericea*
- Hibbertia serpyllifolia*
- Hibbertia virgata*

DIPSACACEAE

- i *Dipsacus fullonum*
- i *Scabiosa atropurpurea*

DONATIACEAE

- t *Donatia novae-zelandiae*

DROSERACEAE

- Drosera arcturi*
- Drosera binata*
- Drosera glanduligera*
- Drosera macrantha*
- Drosera peltata* subsp. *auriculata*

Cunonia Family

- horizontal
- wiry bauera

Dodder Family

- lesser dodder
- fringed dodder
- golden dodder

Guineaflower Family

- prickly guineaflower
- southern guineaflower
- lesser guineaflower
- scrambling guineaflower
- hairy guineaflower
- bassian guineaflower
- grey guineaflower
- spreading guineaflower
- prostrate guineaflower
- erect guineaflower
- brown guineaflower
- basalt guineaflower
- silky guineaflower
- thyme guineaflower
- twiggy guineaflower

Teasel Family

- wild teasel
- garden pincushion

Snowcushion Family

- snow cushionplant

Sundew Family

- alpine sundew
- forked sundew
- scarlet sundew
- climbing sundew
- tall sundew

Drosera peltata subsp. *peltata*

- Drosera* aff. *peltata*
- Drosera pygmaea*
- Drosera spatulata*

ELAEOCARPACEAE

- e *Aristotelia peduncularis*
- Elaeocarpus reticulatus*

ELATINACEAE

- Elatine gratiolooides*

EPACRIDACEAE

- Acrotriche affinis*
- Acrotriche cordata*
- Acrotriche serrulata*
- e *Archeria comberi*
- e *Archeria eriocarpa*
- e *Archeria hirtella*
- e *Archeria minor*
- e *Archeria serpyllifolia*
- Astroloma humifusum*
- Astroloma pinifolium*
- Brachyloma ciliatum*
- Brachyloma depressum*
- e *Cyathodes dealbata*
- e *Cyathodes glauca*
- e *Cyathodes platystoma*
- e *Cyathodes straminea*
- e *Dracophyllum milliganii*
- e *Dracophyllum minimum*
- e *Epacris acuminata*
- e *Epacris apsleyensis*
- e *Epacris barbata*
- e *Epacris corymbiflora*
- e *Epacris curtisiae*
- e *Epacris exserta*
- e *Epacris franklinii*
- e *Epacris glabella*

- pale sundew
- grassland sundew
- dwarf sundew
- rosy sundew

Oliveberry Family

- heartberry
- blueberry ash

Waterwort Family

- waterwort

Heath Family

- ridged groundberry
- coast groundberry
- ants delight
- pink summit-heath
- hairy rainforest-heath
- smooth rainforest-heath
- small summit-heath
- thyme summit-heath
- native cranberry
- pine heath
- fringed heath
- spreading heath
- carpet cheeseberry
- purple cheeseberry
- tall cheeseberry
- spreading cheeseberry
- curly mountainheath
- heath cushionplant
- claspheaf heath
- apsley heath
- bearded heath
- buttongrass heath
- northwest heath
- south esk heath
- western riverheath
- smooth heath

ERICACEAE

- i *Calluna vulgaris*
- i *Erica andromedaeflora*
- i *Erica arborea*
- i *Erica baccans*
- i *Erica caffra*
- i *Erica lusitanica*
- i *Erica scoparia*
- i *Erica* aff. *willmorei*
- t *Gaultheria depressa*
- Gaultheria hispidula*
- e *Gaultheria lanceolata*
- e *Gaultheria tasmanica*

ESCALLONIACEAE

- e *Anopterus glandulosus*
- e *Tetracarpaea tasmanica*

EUCRYPHIACEAE

- e *Eucryphia lucida*
- e *Eucryphia milliganii* subsp. *milliganii*
- e *Eucryphia milliganii* subsp. *pubescens*

EUPHORBIACEAE

- Amperea xiphoclada*
- e *Bertya tasmanica* subsp. *tasmanica*
- Beyeria lechenaultii* var. *latifolia*
- Beyeria viscosa*
- Chamaesyce drummondii*
- i *Euphorbia cyparissias*
- i *Euphorbia exigua*
- i *Euphorbia helioscopia*
- i *Euphorbia lathyris*
- i *Euphorbia paralias*
- i *Euphorbia peplus*
- Micrantheum hexandrum*
- e *Micrantheum serpentinum*
- e *Oreoporanthera petalifera*
- Phyllanthus australis*

Heather Family

- heather
- andromeda heath
- tree heath
- berryflower heath
- african heath
- spanish heath
- twig heath
- willmore heath
- creeping waxberry
- copperleaf snowberry
- lanceleaf waxberry
- tasmanian waxberry

Escallonia Family

- tasmanian laurel
- delicate laurel

Leatherwood Family

- leatherwood
- dwarf leatherwood
- hairy dwarf leatherwood

Spurge Family

- broom spurge
- tasmanian bertya
- pale turpentine-bush
- pinkwood
- caustic spurge
- cypress spurge
- dwarf spurge
- sun spurge
- caper spurge
- sea spurge
- petty spurge
- river tridentbush
- western tridentbush
- mountain poranthera
- southern spurge

- Phyllanthus gunnii*
- Poranthera microphylla*
- Pseudanthus ovalifolius*
- Ricinocarpus pinifolius*

FABACEAE

- Almaleea subumbellata*
- Aotus ericoides*
- Bossiaea cinerea*
- Bossiaea cordigera*
- Bossiaea obcordata*
- Bossiaea prostrata*
- Bossiaea riparia*
- i *Chamaecytisus palmensis*
- Cullen microcephalum*
- i *Cytisus scoparius*
- Daviesia latifolia*
- Daviesia sejugata*
- Daviesia ulicifolia* subsp. *ruscifolia*
- Daviesia ulicifolia* subsp. *ulicifolia*
- Desmodium gunnii*
- Desmodium varians*
- Dillwynia cinerascens*
- Dillwynia glaberrima*
- Dillwynia sericea*
- i *Dipogon lignosus*
- Eutaxia microphylla* var. *microphylla*
- i *Genista linifolia*
- i *Genista monspessulana*
- i *Genista stenopetala*
- Glycine latrobeana*
- Glycine microphylla*
- Gompholobium ecostatum*
- Gompholobium huegeli*
- Goodia lotifolia* var. *lotifolia*
- Goodia lotifolia* var. *pubescens*
- Hardenbergia violacea*
- i *Hedysarum coronarium*

- shrubby spurge
- small poranthera
- roundleaf pseudanthus
- wedding bush

Pea Family

- wiry bushpea
- golden pea
- showy bossia
- wiry bossia
- spiny bossia
- creeping bossia
- leafless bossia
- tree lucerne
- dusky scurfpea
- english broom
- hop bitterpea
- leafy spiky bitterpea
- orange spiky bitterpea
- yellow spiky bitterpea
- southern ticktrefoil
- slender ticktrefoil
- grey parrotpea
- smooth parrotpea
- showy parrotpea
- dolichos pea
- spiny bushpea
- flaxleaf broom
- canary broom
- madeira broom
- twining glycine
- clover glycine
- small-leaf glycine
- dwarf wedgepea
- common wedgepea
- smooth goldentip
- silky goldentip
- purple coralpea
- french honeysuckle

- Viminaria juncea*

FAGACEAE

- Nothofagus cunninghamii*
- e *Nothofagus gunnii*

FRANKENIACEAE

Frankenia pauciflora var. *gunnii*

FUMARIACEAE

- i *Fumaria bastardii*
- i *Fumaria densiflora*
- i *Fumaria muralis*
- i *Fumaria officinalis*
- i *Pseudofumaria alba* subsp. *alba*

GENTIANACEAE

- i *Centaurium erythraea*
- i? *Centaurium spicatum*
- i *Centaurium tenuiflorum*
- e *Chionogentias brevisepala* lesser snowgentian
- x *Chionogentias cunninghamii* subsp. *cunninghamii* cunninghams snowgentian
- e *Chionogentias demissa* humble snowgentian
- e *Chionogentias diemensis* subsp. *diemensis* tasmanian snowgentian
- e *Chionogentias diemensis* subsp. *plantaginea* ben lomond snowgentian
- e *Chionogentias eichleri* eichlers snowgentian

- rough clover
- sea clover
- star clover
- knotted clover
- subterranean clover
- suffocated clover
- woolly clover
- oneflower clover
- gorse
- hairy vetch
- narrowleaf vetch
- smooth vetch
- fodder vetch
- golden spray

Beech Family

- myrtle beech
- deciduous beech

Seaheath Family

southern seaheath

Fumitory Family

- bastards fumitory
- dense fumitory
- wall fumitory
- common fumitory
- white fumitory

Gentian Family

- common centaury
- spike centaury
- slender centaury
- lesser snowgentian
- cunninghams snowgentian
- humble snowgentian
- tasmanian snowgentian
- ben lomond snowgentian
- eichlers snowgentian

- e *Chionogentias grandis* greater snowgentian
- e *Chionogentias gunniana* gunns forestgentian
- e *Chionogentias pleurogynoides* subsp. *milliganii* milligans snowgentian
- e *Chionogentias pleurogynoides* subsp. *pleurogynoides* common snowgentian
- Chionogentias polysperes* early forestgentian
- i *Cicendia filiformis* slender cicendia
- Sebaea albidiflora* white sebaea
- Sebaea ovata* yellow sebaea

GERANIACEAE

- i *Erodium botrys* long heronsbill
- i *Erodium cicutarium* common heronsbill
- i *Erodium malacoides* oval heronsbill
- i *Erodium moschatum* musky heronsbill
- i *Geranium dissectum* cutleaf cranesbill
- i *Geranium molle* soft cranesbill
- Geranium potentilloides* mountain cranesbill
- Geranium retrorsum* grassland cranesbill
- i *Geranium rotundifolium* roundleaf cranesbill
- Geranium sessiliflorum* subsp. *brevicaule* alpine cranesbill
- Geranium solanderi* southern cranesbill
- i *Geranium yeoi* madeira cranesbill
- Pelargonium australe* southern storksbill
- i *Pelargonium capitatum* scented geranium
- Pelargonium inodorum* annual storksbill
- Pelargonium littorale* coast storksbill
- i *Pelargonium Xasperum* rose-oil geranium
- i *Pelargonium Xdomesticum* garden geranium

GOODENIACEAE

- x *Cooperookia barbata* purple native-primrose
- Dampiera stricta* blue dampiera
- Goodenia elongata* lanky native-primrose
- Goodenia geniculata* bent native-primrose
- Goodenia humilis* swamp native-primrose
- Goodenia lanata* trailing native-primrose
- Goodenia ovata* hop native-primrose
- x *Goodenia pinnatifida* cutleaf native-primrose
- Scaevola aemula* fairy fanflower

Native-primrose Family

- purple native-primrose
- blue dampiera
- lanky native-primrose
- bent native-primrose
- swamp native-primrose
- trailing native-primrose
- hop native-primrose
- cutleaf native-primrose
- fairy fanflower

Scaevola albida
Scaevola hookeri
Selliera radicans
Velleia montana
Velleia paradoxa

GROSSULARIACEAE

i *Ribes sanguineum*

GUNNERACEAE

e *Gunnera cordifolia*

GYROSTEMONACEAE

Gyrostemon thesioides

HALORAGACEAE

Gonocarpus humilis
Gonocarpus micranthus subsp. *micranthus*
Gonocarpus montanus
Gonocarpus serpyllifolius
Gonocarpus tetragynus
Gonocarpus teucrioides
Haloragis aspera
Haloragis brownii
Haloragis heterophylla
Haloragis myriocarpa
Myriophyllum amphibium
i *Myriophyllum aquaticum*

i *Myriophyllum crispatum*
x *Myriophyllum glomeratum*
Myriophyllum integrifolium
Myriophyllum muelleri
Myriophyllum pedunculatum var. *longibracteolatum*
Myriophyllum pedunculatum var. *pedunculatum*
Myriophyllum salsugineum
Myriophyllum simulans
m *Myriophyllum triphyllum*
Myriophyllum variifolium

pale fanflower
creeping fanflower
shiny swampmat
mountain velleia
spur velleia

Currant Family

flowering currant

Gunnera Family

tasmanian mudleaf

Wheelfruit Family

broom wheelfruit

Raspwort Family

shade raspwort
creeping raspwort
mountain raspwort
alpine raspwort
common raspwort
forest raspwort
rough raspwort
swamp raspwort
variable raspwort
prickly raspwort
broad watermilfoil
parrotfeather
highland watermilfoil
upright watermilfoil
clustered watermilfoil
tiny watermilfoil
hooded watermilfoil
spreading watermilfoil
matted watermilfoil
lake watermilfoil
amphibious watermilfoil
three-whorled watermilfoil
variable watermilfoil

HYDROPHYLLACEAE

i *Phacelia tanacetifolia*

LAMIACEAE

Ajuga australis
i *Ajuga reptans*
i *Cedronella canariensis*
i *Lamium amplexicaule*
i *Lamium purpureum*
i *Leonotis leonurus*
Lycopus australis
i *Marrubium vulgare*
i *Melissa officinalis*

marsh woundwort
forest germander
wood sage
narrowleaf westringia
shortleaf westringia
greater shortleaf westringia
stiff westringia
sticky westringia

LAURACEAE

- Cassytha glabella*
Cassytha melantha
 e *Cassytha pedicellosa*
Cassytha pubescens

LENTIBULARIACEAE

- Utricularia australis*
Utricularia dichotoma
Utricularia lateriflora
Utricularia monanthos
Utricularia tenella
Utricularia violacea

LINACEAE

- e *Linum albidum*
 i *Linum bienne*
 i *Linum catharticum*
Linum marginale
 i *Linum trigynum*
 i *Linum usitatissimum*

LOGANIACEAE

- Mitrasacme pilosa* var. *pilosa*
Mitrasacme pilosa var. *stuartii*
Mitrasacme serpyllifolia
Phyllangium distylis
Phyllangium divergens
 e *Schizacme archeri*
Schizacme montana

LYTHRACEAE

- Lythrum hyssopifolia*
Lythrum salicaria

MALVACEAE

- e *Asterotrichion discolor*
Gynatrix pulchella
 i *Hibiscus trionum*

Laurel Family

- slender dodderlaurel
 large dodderlaurel
 stalked dodderlaurel
 downy dodderlaurel

Bladderwort Family

- yellow bladderwort
 fairies aprons
 tiny bladderwort
 mountain bladderwort
 pink bladderwort
 violet bladderwort

Flax Family

- mountain flax
 pale flax
 white flax
 native flax
 french flax
 linseed flax

Mitrewort Family

- hairy mitrewort
 stalked hairy mitrewort
 thyme mitrewort
 tiny mitrewort
 wiry mitrewort
 cushion mitrewort
 mountain mitrewort

Loosestrife Family

- small loosestrife
 purple loosestrife

Mallow Family

- tasmanian currajong
 fragrant hempbush
 bladder ketmia

- Lawrenzia spicata*
 i? *Lawrenzia squamata*
Malva australiana
 i *Malva dendromorpha*
 i *Malva linnaei*
 i *Malva moschata*
 i *Malva neglecta*
 i *Malva nicaeensis*
 i *Malva parviflora*
 i *Malva sylvestris*
 i *Modiola caroliniana*

MENYANTHACEAE

- t *Liparophyllum gunnii*
 e *Nymphoides exigua*
Villarsia exaltata
Villarsia reniformis

MIMOSACEAE

- e *Acacia axillaris*
 i *Acacia baileyana*
Acacia dealbata subsp. *dealbata*
 i *Acacia decurrens*
 e *Acacia derwentiana*
Acacia genistifolia
Acacia gunnii
Acacia implexa
 i *Acacia longifolia* subsp. *longifolia*
Acacia longifolia subsp. *sophorae*
Acacia mearnsii
Acacia melanoxylon
 e *Acacia mucronata* subsp. *dependens*
Acacia mucronata subsp. *longifolia*
Acacia mucronata subsp. *mucronata*
Acacia myrtifolia
 i *Acacia paradoxa*
 e *Acacia pataczekii*
 i *Acacia pycnantha*
Acacia retinodes var. *uncifolia*

- candle saltmallow
 thorny saltmallow
 australian mallow
 tree mallow
 cretan mallow
 musk mallow
 dwarf mallow
 mallow-of-nice
 smallflower mallow
 tall mallow
 redflower mallow

Marshflower Family

- alpine marshwort
 dwarf marshwort
 erect marshflower
 running marshflower

Wattle Family

- midlands wattle
 cootamundra wattle
 silver wattle
 green wattle
 derwent wattle
 spreading wattle
 ploughshare wattle
 hickory wattle
 sydney coast wattle
 coast wattle
 black wattle
 blackwood
 blunt caterpillar wattle
 longleaf caterpillar wattle
 erect caterpillar wattle
 redstem wattle
 thorn wattle
 wallys wattle
 golden wattle
 wirilda

- e *Acacia riceana*
- Acacia siculiformis*
- Acacia stricta*
- Acacia suaveolens*
- Acacia terminalis*
- Acacia ulicifolia*
- Acacia verniciflua*
- Acacia verticillata* subsp. *ovoidea*
- Acacia verticillata* subsp. *ruscifolia*
- Acacia verticillata* subsp. *verticillata*
- i *Paraserianthes lophantha* subsp. *lophantha*

MONIMIACEAE

- Atherosperma moschatum*
- Hedycarya angustifolia*

MYOPORACEAE

- Myoporum insulare*
- Myoporum parvifolium*

MYRTACEAE

- Baeckea gunniana*
- e *Baeckea leptocaulis*
- Callistemon pallidus*
- e *Callistemon viridiflorus*
- Calytrix tetragona*
- e *Eucalyptus amygdalina*
- e *Eucalyptus archeri*
- e *Eucalyptus barberi*
- Eucalyptus brookeriana*
- e *Eucalyptus coccifera*
- e *Eucalyptus cordata*
- Eucalyptus dalrympleana* subsp. *dalrympleana*
- e *Eucalyptus delegatensis* subsp. *tasmaniensis*
- Eucalyptus globulus* subsp. *globulus*
- Eucalyptus globulus* subsp. *pseudoglobulus*
- e *Eucalyptus gunnii* subsp. *divaricata*
- e *Eucalyptus gunnii* subsp. *gunnii*
- e *Eucalyptus johnstonii*

- arching wattle
- dagger wattle
- hop wattle
- sweet wattle
- sunshine wattle
- juniper wattle
- varnish wattle
- prostrate prickly Moses
- broadleaf prickly Moses
- prickly Moses
- cape wattle

Sassafras Family

- sassafras
- australian mulberry

Boobialla Family

- common boobialla
- creeping boobialla

Myrtle Family

- alpine heathmyrtle
- slender heathmyrtle
- yellow bottlebrush
- prickly bottlebrush
- common fringemyrtle
- black peppermint
- alpine cider gum
- barbers gum
- brookers gum
- snow peppermint
- tasmanian silver gum
- mountain white gum
- gumtopped stringybark
- tasmanian blue gum
- gippsland blue gum
- miena cider gum
- cider gum
- yellow gum

- e *Eucalyptus morrisbyi*
- e *Eucalyptus nitida*
- Eucalyptus obliqua*
- Eucalyptus ovata*
- Eucalyptus pauciflora* subsp. *pauciflora*
- Eucalyptus perriniana*
- e *Eucalyptus pulchella*
- Eucalyptus radiata* subsp. *robertsonii*
- Eucalyptus regnans*
- e *Eucalyptus risdonii*
- e *Eucalyptus rodwayi*
- Eucalyptus rubida*
- Eucalyptus sieberi*
- e *Eucalyptus subcrenulata*
- e *Eucalyptus tenuiramis*
- e *Eucalyptus urnigera*
- e *Eucalyptus vernicosa*
- Eucalyptus viminalis* subsp. *viminalis*
- Euryomyrtus ramosissima* subsp. *prostrata*
- Euryomyrtus ramosissima* subsp. *ramosissima*
- Kunzea ambigua*
- i *Kunzea ericoides*
- e *Leptospermum glaucescens*
- e *Leptospermum grandiflorum*
- Leptospermum laevigatum*
- Leptospermum lanigerum*
- e *Leptospermum nitidum*
- e *Leptospermum riparium*
- e *Leptospermum rupestre*
- Leptospermum scoparium* var. *eximium*
- Leptospermum scoparium* var. *scoparium*
- Melaleuca armillaris* subsp. *armillaris*
- Melaleuca ericifolia*
- Melaleuca gibbosa*
- e *Melaleuca pustulata*
- Melaleuca squamea*
- Melaleuca squarrosa*
- Thryptomene micrantha*

- morrisbys gum
- western peppermint
- stringybark
- black gum
- cabbage gum
- spinning gum
- white peppermint
- forth river peppermint
- giant ash
- risdon peppermint
- swamp peppermint
- candlebark
- ironbark
- alpine yellow gum
- silver peppermint
- urn gum
- varnished gum
- white gum
- creeping heathmyrtle
- rosy heathmyrtle
- white kunzea
- burgan
- smoky teatree
- autumn teatree
- coast teatree
- woolly teatree
- shiny teatree
- river teatree
- mountain teatree
- broadleaf common teatree
- common teatree
- giant honeymyrtle
- coast paperbark
- slender honeymyrtle
- warty paperbark
- swamp honeymyrtle
- scented paperbark
- ribbed heathmyrtle

OLEACEAE

- i *Ligustrum vulgare*
- Notelaea ligustrina*

ONAGRACEAE

- Epilobium billardierianum* subsp. *billardierianum*
- Epilobium billardierianum* subsp. *cinereum*
- Epilobium billardierianum* subsp. *intermedium*
- m *Epilobium brunnescens* subsp. *brunnescens*
- i *Epilobium ciliatum*
- Epilobium curtisiae*
- e *Epilobium fugitivum*
- Epilobium gunnianum*
- Epilobium hirtigerum*
- i *Epilobium nummulariifolium*
- i *Epilobium obscurum*
- Epilobium pallidiflorum*
- m *Epilobium pedunculare*
- e *Epilobium perpusillum*
- i *Epilobium rotundifolium*
- Epilobium sarmentaceum*
- Epilobium tasmanicum*
- Epilobium willisii*
- i *Fuchsia magellanica*
- i *Oenothera biennis*
- i *Oenothera glazioviana*
- i *Oenothera stricta*

OROBANCHACEAE

- i *Orobanche minor*

OXALIDACEAE

- i *Oxalis articulata*
- i *Oxalis corniculata* subsp. *corniculata*
- Oxalis exilis*
- i *Oxalis incarnata*
- i *Oxalis latifolia*
- Oxalis magellanica*
- Oxalis perennans*

Olive Family

- privet
- native olive

Willowherb Family

- robust willowherb
- grey willowherb
- marsh willowherb
- subantarctic willowherb
- glandular willowherb
- baldseed willowherb
- blunt willowherb
- bog willowherb
- hairy willowherb
- creeping willowherb
- shade willowherb
- showy willowherb
- stalked willowherb
- tiny willowherb
- roundleaf willowherb
- mountain willowherb
- snow willowherb
- carpet willowherb
- fuchsia
- evening-primrose
- reddish evening-primrose
- fragrant evening-primrose

Broomrape Family

- lesser broomrape

Woodsorrel Family

- bent woodsorrel
- yellow woodsorrel
- feeble woodsorrel
- pale woodsorrel
- largeleaf woodsorrel
- snowdrop woodsorrel
- grassland woodsorrel

- i *Oxalis pes-caprae*
- i *Oxalis purpurea*
- Oxalis radicata*

PAPAVERACEAE

- i *Argemone ochroleuca*
- i *Eschscholzia californica*
- i *Glaucium flavum*
- ix *Papaver aculeatum*
- i *Papaver argemone*
- i *Papaver dubium*
- i *Papaver hybridum*
- i *Papaver rhoeas*
- i *Papaver somniferum* subsp. *setigerum*
- i *Papaver somniferum* subsp. *somniferum*

PASSIFLORACEAE

- i *Passiflora cinnabarina*
- i *Passiflora tarminiana*

PITTIOSPORACEAE

- i *Billardiera heterophylla*
- e *Billardiera longiflora*
- Billardiera macrantha*
- Billardiera mutabilis*
- e *Billardiera nesophila*
- e *Billardiera ovalis*
- e *Billardiera viridiflora*
- Bursaria spinosa*
- Pittosporum bicolor*
- i *Pittosporum undulatum* subsp. *Xemmettii*
- i *Pittosporum undulatum* subsp. *undulatum*
- Rhytidosporum inconspicuum*
- Rhytidosporum procumbens*

PLANTAGINACEAE

- Plantago antarctica*
- i *Plantago australis*
- e *Plantago bellidioides*

- soursob
- largeflower woodsorrel
- stoutroot woodsorrel

Poppy Family

- prickly poppy
- californian poppy
- yellow poppy
- bristle poppy
- pale poppy
- longhead poppy
- rough poppy
- field poppy
- small opium poppy
- opium poppy

Passionflower Family

- red passionflower
- banana passionfruit

Pittosporum Family

- bluebell creeper
- purple appleberry
- highland appleberry
- green appleberry
- coastal appleberry
- seaspray appleberry
- northwest appleberry
- prickly box
- cheesewood
- hybrid pittosporum
- sweet pittosporum
- alpine appleberry
- starry appleberry

Plantain Family

- mountain plantain
- southern plantain
- herbfield plantain

- i *Plantago coronopus* subsp. *commutata* stout buckshorn plantain
- i *Plantago coronopus* subsp. *coronopus* slender buckshorn plantain
- e *Plantago daltonii* alpine plantain
- Plantago debilis* shade plantain
- Plantago gaudichaudii* narrow plantain
- e *Plantago glabrata* subalpine plantain
- Plantago glacialis* small star plantain
- e *Plantago gunnii* bolster plantain
- Plantago hispida* hairy plantain
- i *Plantago lanceolata* ribwort plantain
- i *Plantago major* great plantain
- e *Plantago paradoxa* hairtuft plantain
- e *Plantago tasmanica* var. *archeri* shortstem tasmanian plantain
- e *Plantago tasmanica* var. *tasmanica* tasmanian plantain
- t *Plantago triantha* saltspray plantain
- Plantago varia* variable plantain

PLUMBAGINACEAE

- Limonium australe*
- e *Limonium baudinii* tasmanian sea-lavender

POLEMONIACEAE

- i *Collomia linearis* tiny trumpet
- i *Navarretia squarrosa* skunkweed

POLYGALACEAE

- Comesperma calymega*
- Comesperma defoliatum*
- Comesperma ericinum*
- Comesperma retusum*
- Comesperma volubile*
- i *Polygala myrtifolia*
- i *Polygala vulgaris* common milkwort

POLYGONACEAE

- i *Acetosa sagittata*
- i *Acetosella vulgaris* sheep sorrel
- i *Emex australis* prickly jacks
- i *Fallopia convolvulus* black bindweed

Leadwort Family

- yellow sea-lavender
- tasmanian sea-lavender

Phlox Family

- tiny trumpet
- skunkweed

Milkwort Family

- bluespike milkwort
- leafless milkwort
- heath milkwort
- mountain milkwort
- blue lovecreeper
- myrtleleaf milkwort
- common milkwort

Dock Family

- rambling dock
- sheep sorrel
- prickly jacks
- black bindweed

- i *Fallopia japonica* japanese knotweed
- Muehlenbeckia adpressa* climbing lignum
- Muehlenbeckia axillaris* matted lignum
- Muehlenbeckia gunnii* forest lignum
- Persicaria decipiens* slender waterpepper
- Persicaria hydropiper* green waterpepper
- i *Persicaria lapathifolia* pale knotweed
- i *Persicaria maculosa* common knotweed
- Persicaria praetermissa* arrow waterpepper
- i? *Persicaria prostrata* creeping waterpepper
- Persicaria subsessilis* bristly waterpepper
- i *Polygonum arenastrum* small wireweed
- i *Polygonum aviculare* creeping wireweed
- Rumex bidens* mud dock
- Rumex brownii* slender dock
- i *Rumex conglomeratus* clustered dock
- i *Rumex crispus* curled dock
- Rumex dumosus* wiry dock
- i *Rumex obtusifolius* subsp. *obtusifolius* western broadleaf dock
- i *Rumex obtusifolius* subsp. *transiens* central broadleaf dock
- i *Rumex pulcher* subsp. *pulcher* fiddle dock

PORTULACACEAE

- Calandrinia calyptrata*
 - i *Calandrinia ciliata*
 - Calandrinia eremaea*
 - Calandrinia granulifera*
 - i *Calandrinia menziesii*
 - Montia fontana* subsp. *chondrosperma*
 - im *Montia fontana* subsp. *fontana*
 - Neopaxia australasica*
 - Portulaca oleracea*
- Purslane Family**
- pink purslane
 - fringed redmaids
 - small purslane
 - pygmy purslane
 - purple purslane
 - waterblinks
 - bog waterblinks
 - white purslane
 - common purslane

PRIMULACEAE

- i *Anagallis arvensis* var. *arvensis* scarlet pimpernel
- i *Anagallis arvensis* var. *caerulea* blue pimpernel
- i *Lysimachia nummularia* creeping jenny
- Samolus repens* creeping brookweed

PROTEACEAE

- e *Agastachys odorata*
- x *Banksia integrifolia* var. *integrifolia*
- Banksia marginata*
- Banksia serrata*
- e *Bellendenena montana*
- e *Cenarrhens nitida*
- e *Conospermum hookeri*
- Grevillea australis* var. *australis*
- e *Grevillea australis* var. *brevifolia*
- e *Grevillea australis* var. *erecta*
- e *Grevillea australis* var. *linearifolia*
- e *Grevillea australis* var. *montana*
- e *Grevillea australis* var. *planifolia*
- e *Grevillea australis* var. *subulata*
- e *Grevillea australis* var. *tenuifolia*
- i *Grevillea* hybrids
- Hakea decurrens* subsp. *physocarpa*
- Hakea decurrens* subsp. *platytaenia*
- e *Hakea epiglottis* subsp. *epiglottis*
- e *Hakea epiglottis* subsp. *milliganii*
- Hakea lissosperma*
- e *Hakea megadenia*
- Hakea microcarpa*
- Hakea nodosa*
- Hakea teretifolia* subsp. *hirsuta*
- Hakea ulicina*
- Isopogon ceratophyllum*
- e *Lomatia polymorpha*
- e *Lomatia tasmanica*
- e *Lomatia tinctoria*
- e *Orites acicularis*
- e *Orites diversifolia*
- e *Orites milliganii*
- e *Orites revoluta*
- e *Persoonia gunnii* var. *gunnii*
- e *Persoonia gunnii* var. *oblanceolata*
- e *Persoonia juniperina* var. *brevifolia*
- Persoonia juniperina* var. *juniperina*

Protea Family

- fragrant candlebush
- coast banksia
- silver banksia
- saw banksia
- mountain rocket
- native plum
- tasmanian smokebush
- southern grevillea
- shortleaf grevillea
- erect grevillea
- narrowleaf grevillea
- alpine grevillea
- flatleaf grevillea
- leathery grevillea
- slender grevillea
- garden grevillea
- bushy needlebush
- coast needlebush
- beaked needlebush
- western beaked needlebush
- mountain needlebush
- autumn needlebush
- smallfruit needlebush
- yellow needlebush
- dagger needlebush
- furze needlebush
- horny conebush
- mountain guitarplant
- kings lomatia
- guitarplant
- yellow orites
- variable orites
- toothed orites
- revolute orites
- mountain geebung
- lanceleaf geebung
- shortleaf geebung
- prickly geebung

- e *Persoonia juniperina* var. *mollis*
- e *Persoonia juniperina* var. *ulicina*
- e *Persoonia moscalii*
- e *Persoonia muelleri* subsp. *angustifolia*
- e *Persoonia muelleri* subsp. *densifolia*
- e *Persoonia muelleri* subsp. *muelleri*
- e *Telopea truncata*

- soft geebung
- coast geebung
- creeping geebung
- narrowleaf geebung
- leafy geebung
- highland geebung
- tasmanian waratah

RANUNCULACEAE

- i *Adonis microcarpa*
- e *Anemone crassifolia*
- i *Batrachium trichophyllum*
- e *Caltha phylloptera*
- Clematis aristata*
- e *Clematis gentianoides*
- Clematis microphylla*
- i *Clematis vitalba*
- Myosurus australis*
- t *Ranunculus acaulis*
- i *Ranunculus acris*
- Ranunculus amphitrichus*
- i *Ranunculus arvensis*
- e *Ranunculus collicola*
- Ranunculus collinus*
- m *Ranunculus crassipes*
- e *Ranunculus decurvus*
- Ranunculus diminutus*
- i *Ranunculus flammula*
- Ranunculus glabrifolius*
- Ranunculus gunnianus*
- e *Ranunculus jugosus*
- Ranunculus lappaceus*
- i *Ranunculus muricatus*
- e *Ranunculus nanus*
- i *Ranunculus parviflorus*
- e *Ranunculus pascuinus*
- Ranunculus pimpinellifolius*
- e *Ranunculus prasinus*
- Ranunculus pumilio* var. *pumilio*

- Buttercup Family**
- pheasants eye
- mountain anemone
- water fennel
- tasmanian snowbuttercup
- mountain clematis
- ground clematis
- small-leaf clematis
- travellers joy
- southern mousetail
- dune buttercup
- meadow buttercup
- river buttercup
- field buttercup
- lake augusta buttercup
- mountain buttercup
- succulent buttercup
- nodding buttercup
- brackish buttercup
- lesser spearwort
- shining buttercup
- tufted buttercup
- twinned buttercup
- woodland buttercup
- sharp buttercup
- dwarf buttercup
- smallflower buttercup
- pressed-hair buttercup
- bog buttercup
- midlands buttercup
- ferry buttercup

- i *Ranunculus repens*
- i *Ranunculus sardous*
- Ranunculus scapiger*
- i *Ranunculus sceleratus*
- Ranunculus sessiliflorus* var. *sessiliflorus*
- e *Ranunculus setaceus*
- i *Ranunculus trilobus*
- e *Ranunculus triplodontus*

RESEDACEAE

- i *Reseda alba*
- i *Reseda lutea*
- i *Reseda luteola*

RHAMNACEAE

- e *Cryptandra alpina*
- Cryptandra amara*
- e *Cryptandra exilis*
- Discaria pubescens*
- Pomaderris apetala* subsp. *apetala*
- Pomaderris apetala* subsp. *maritima*
- Pomaderris aspera*
- Pomaderris elachophylla*
- e *Pomaderris elliptica* var. *diemenica*
- Pomaderris elliptica* var. *elliptica*
- Pomaderris intermedia*
- Pomaderris oraria* subsp. *oraria*
- Pomaderris paniculosa* subsp. *paralia*
- Pomaderris phyllicifolia* subsp. *phyllicifolia*
- Pomaderris pilifera*
- Pomaderris racemosa*
- i *Rhamnus alaternus*
- Spyridium eriocephalum* var. *eriocephalum*
- e *Spyridium gunnii*
- e *Spyridium lawrencei*
- e *Spyridium obcordatum*
- e *Spyridium obovatum* var. *obovatum*
- e *Spyridium obovatum* var. *velutinum*
- e *Spyridium parvifolium* var. *molle*

- creeping buttercup
- pale hairy buttercup
- gully buttercup
- celery buttercup
- rockplate buttercup
- simple-leaf buttercup
- large annual buttercup
- threetooth buttercup

Mignonette Family

- white mignonette
- cutleaf mignonette
- weld

Buckthorn Family

- alpine pearlflower
- pretty pearlflower
- slender pearlflower
- spiky anchorplant
- common dogwood
- coast dogwood
- hazel dogwood
- small-leaf dogwood
- tasmanian yellow dogwood
- yellow dogwood
- lemon dogwood
- bassian dogwood
- shining dogwood
- narrowleaf dogwood
- hairy dogwood
- slender dogwood
- italian buckthorn
- heath dustymiller
- forest dustymiller
- small-leaf dustymiller
- creeping dustymiller
- smooth dustymiller
- velvet dustymiller
- soft dustymiller

- Spyridium parvifolium* var. *parvifolium*
- e *Spyridium ulicinum*
- Spyridium vexilliferum* var. *vexilliferum*
- e *Stenanthemum pimeleoides*

ROSACEAE

- Acaena agnipila* var. *aequispina*
- Acaena agnipila* var. *tenuispica*
- Acaena echinata* var. *retrorsumpilosa*
- Acaena echinata* var. *subglabralyx*

STACKHOUSIACEAE

- e *Stackhousia gunnii*
- Stackhousia monogyna*
- Stackhousia pulvinaris*
- Stackhousia spathulata*
- Stackhousia viminea*

STERCULIACEAE

- Lasiopetalum baueri*
- Lasiopetalum discolor*
- Lasiopetalum macrophyllum*
- e *Lasiopetalum micranthum*

STYLIDIACEAE

- e *Forstera bellidifolia*

- marsh speedwell
- thyme speedwell

Nightshade Family

- tasmanian rayflower
- longspine thornapple
- common thornapple
- white henbane
- chinese boxthorn
- african boxthorn
- cape gooseberry
- pampas lily-of-the-valley
- glossy nightshade
- woody nightshade
- broad nightshade
- kangaroo apple
- white-edged nightshade
- blackberry nightshade
- greenberry nightshade
- cherry nightshade
- winter cherry
- cutleaf nightshade
- gunyang

Candles Family

- grassland candles
- forest candles
- alpine candles
- coast candles
- yellow candles

Velvetbush Family

- slender velvetbush
- coast velvetbush
- shrubby velvetbush
- tasmanian velvetbush

Triggerplant Family

- tasmanian forstera

- x *Levenhookia dubia*
- t *Phyllachne colensoi*
- Stylidium armeria*
- Stylidium despectum*
- Stylidium dilatatum*
- Stylidium graminifolium*
- Stylidium inundatum*
- Stylidium perpusillum*

THYMELAEACEAE

- Kelleria dieffenbachii*
- Pimelea axiflora* subsp. *axiflora*
- e *Pimelea cinerea*
- Pimelea curviflora* var. *gracilis*
- Pimelea curviflora* var. *sericea*
- Pimelea drupacea*
- e *Pimelea filiformis*
- Pimelea flava* subsp. *flava*
- Pimelea glauca*
- Pimelea humilis*

- Pimelea linifolia* subsp. *linoides*
- Pimelea micrantha*
- e *Pimelea milliganii*
- e *Pimelea nivea*
- Pimelea pauciflora*
- Pimelea phyllicoides*
- e *Pimelea pygmaea*
- e *Pimelea sericea*
- Pimelea serpyllifolia* subsp. *serpyllifolia*

TREMANDRACEAE

- Tetradlea ciliata*
- e *Tetradlea gunnii*
- Tetradlea labillardierei*
- Tetradlea pilosa* subsp. *latifolia*
- Tetradlea pilosa* subsp. *pilosa*
- Tetradlea procumbens*

- hairy stylewort
- yellow cushionplant
- coastal triggerplant
- small triggerplant
- broadleaf triggerplant
- narrowleaf triggerplant
- swamp triggerplant
- tiny triggerplant

Riceflower Family

- carpet riceflower
- bootlace bush
- grey riceflower
- slender curved riceflower
- silky curved riceflower
- cherry riceflower
- trailing riceflower
- yellow riceflower
- smooth riceflower
- dwarf riceflower
- tall riceflower
- slender riceflower
- greater slender riceflower
- silky riceflower
- silver riceflower
- bushmans bootlace
- poison riceflower
- heath riceflower
- alpine riceflower
- mountain riceflower
- thyme riceflower

Pinkbells Family

- northern pinkbells
- shy pinkbells
- glandular pinkbells
- broadleaf hairy pinkbells
- hairy pinkbells
- spreading pinkbells

ULMACEAE

i *Ulmus Xhollandica*

URTICACEAE

Australina pusilla subsp. *muelleri*

Australina pusilla subsp. *pusilla*

Parietaria cardiostegia

Parietaria debilis

i *Parietaria judaica*

i *Soleirolia soleirolii*

Urtica incisa

i *Urtica urens*

VALERIANACEAE

i *Centranthus ruber*

i *Valerianella eriocarpa*

i *Valerianella locusta*

i *Valerianella rimosa*

VERBENACEAE

i *Verbena bonariensis*

i *Verbena officinalis*

VIOLACEAE

Melicytus dentatus

i *Viola arvensis*

Viola betonicifolia

Viola caleyana

Viola cleistogamoides

Viola cunninghamii

Viola fuscoviolacea

e *Viola hederacea* subsp. *curtisiae*

Viola hederacea subsp. *hederacea*

Viola sieberiana

WINTERACEAE

Tasmannia lanceolata

Elm Family

dutch elm

Nettle Family

shade nettle

small shade nettle

mallee pellitory

shade pellitory

wall pellitory

babys tears

scrub nettle

stinging nettle

Valerian Family

red valerian

italian cornsalad

lambs lettuce

broadfruit cornsalad

Vervain Family

purple vervain

common vervain

Violet Family

spiky violetbush

field pansy

showy violet

swamp violet

shy violet

alpine violet

dusky violet

montane ivyleaf violet

ivyleaf violet

tiny violet

Peppertree Family

mountain pepper

ZYGOPHYLLACEAE

Zygophyllum billardierei

Monocotyledonae

Monocots, plants with 1 seed leaf

AGAVACEAE

i *Phormium tenax*

ALISMATACEAE

i *Alisma plantago-aquatica*

Damasonium minus

ALOEACEAE

i *Aloe saponaria*

APONOGETONACEAE

i *Aponogeton distachyos*

ARACEAE

i *Zantedeschia aethiopica*

BURMANNIACEAE

Thismia rodwayi

CENTROLEPIDACEAE

Aphelia gracilis

Aphelia pumilio

Centrolepis aristata

Centrolepis fascicularis

Centrolepis glabra

e *Centrolepis monogyna* subsp. *monogyna*

e *Centrolepis monogyna* subsp. *paludicola*

e *Centrolepis muscoides*

e *Centrolepis pedderensis*

Centrolepis polygyna

e *Centrolepis strigosa* subsp. *pulvinata*

Twinleaf Family

coast twinleaf

Agave Family

new zealand flax

Water plantain Family

water plantain

starfruit

Aloe Family

soap aloe

Laceplant Family

cape pondweed

Arum Family

arum lily

Burmanna Family

fairly lanterns

Bristlewort Family

slender fanwort

dwarf fanwort

pointed bristlewort

tufted bristlewort

smooth bristlewort

western cushion-bristlewort

swamp cushion-bristlewort

eastern cushion-bristlewort

pedder bristlewort

wiry bristlewort

bassian bristlewort

m	<i>Poa litorosa</i>	seashore tussockgrass
e	<i>Poa mollis</i>	soft tussockgrass
	<i>Poa poiformis</i> var. <i>poiformis</i>	coastal tussockgrass
	<i>Poa poiformis</i> var. <i>ramifer</i>	island purplegrass
i	<i>Poa pratensis</i>	kentucky bluegrass
	<i>Poa rodwayi</i>	velvet tussockgrass
	<i>Poa saxicola</i>	rock snowgrass
	<i>Poa sieberiana</i>	grey tussockgrass
	<i>Poa tenera</i>	scrambling tussockgrass
i	<i>Poa trivialis</i>	rough meadowgrass
i	<i>Polypogon maritimus</i>	coast beardgrass
i	<i>Polypogon monspeliensis</i>	annual beardgrass
i	<i>Polypogon viridis</i>	water bent
i	<i>Puccinellia distans</i>	feral saltmarshgrass
m	<i>Puccinellia macquariensis</i>	subantarctic saltmarshgrass
	<i>Puccinellia stricta</i> var. <i>perlaxa</i>	spreading saltmarshgrass
	<i>Puccinellia stricta</i> var. <i>stricta</i>	australian saltmarshgrass
i	<i>Rostraria cristata</i>	annual catstail
	<i>Rytidosperma australe</i>	snowpatch grass
	<i>Rytidosperma dimidiatum</i>	variable wallabygrass
e	<i>Rytidosperma fortunae-hibernae</i>	luck-of-the-irish wallabygrass
e	<i>Rytidosperma nitens</i>	shiny wallabygrass
	<i>Rytidosperma nivicola</i>	snow wallabygrass
	<i>Rytidosperma nudiflorum</i>	alpine wallabygrass
e	<i>Rytidosperma pauciflorum</i>	cushionplant wallabygrass
	<i>Sclerochloa dura</i>	hard meadowgrass
i	<i>Secale cereale</i>	rye
i	<i>Setaria gracilis</i> var. <i>pauciseta</i>	slender pigeongrass
i	<i>Setaria italica</i>	italian millet
i	<i>Setaria verticillata</i>	whorled pigeongrass
i	<i>Setaria viridis</i>	green pigeongrass
i	<i>Spartina anglica</i>	common cordgrass
	<i>Spinifex sericeus</i>	beach spinifex
i	<i>Sporobolus africanus</i>	ratstail grass
	<i>Sporobolus virginicus</i>	salt couch
i	<i>Stenotaphrum secundatum</i>	buffalo grass
	<i>Themeda triandra</i>	kangaroo grass
i	<i>Thinopyrum junceiforme</i>	sea wheatgrass

	<i>Trisetum spicatum</i> subsp. <i>australiense</i>	bristle grass
i	<i>Triticum aestivum</i>	wheat
i	<i>Vulpia bromoides</i>	squirreltail fescue
i	<i>Vulpia fasciculata</i>	dune fescue
i	<i>Vulpia muralis</i>	wall fescue
i	<i>Vulpia myuros</i> forma <i>megalura</i>	foxtail fescue
i	<i>Vulpia myuros</i> forma <i>myuros</i>	ratstail fescue
	<i>Zoysia macrantha</i>	prickly couch

POSIDONIACEAE

Posidonia australis

Eelgrass Family
southern eelgrass

POTAMOGETONACEAE

Potamogeton australiensis

Potamogeton crispus

Potamogeton ochreatus

Potamogeton pectinatus

Potamogeton perfoliatus

Potamogeton tricarinatus

Pondweed Family
thin pondweed
curly pondweed
blunt pondweed
fennel pondweed
clasped pondweed
floating pondweed

RESTIONACEAE

Apodasmia brownii

Baloskion australe

Baloskion tetraphyllum subsp. *tetraphyllum*

Calorophus elongatus

e *Calorophus erostris*

e *Chordifex hookeri*

e *Chordifex monocephalus*

Empodisma minus

Eurychorda complanata

Hypolaena fastigiata

Leptocarpus tenax

Lepyrodia muelleri

Sporadanthus tasmanicus

e *Winifredia sola*

Cordrush Family
coarse twinerush
southern cordrush
tassel cordrush
long roperush
black roperush
woolly buttonrush
smooth buttonrush
spreading roperush
flat cordrush
tassel roperush
slender twinerush
erect scalerush
branching scalerush
southwest cordrush

RUPPIACEAE

Ruppia megacarpa

Ruppia polycarpa

Seatassel Family
largefruit seatassel
manyleaf seatassel

Ruppia tuberosa

TYPHACEAE

Typha domingensis

i *Typha latifolia*

Typha orientalis

XANTHORRHOACEAE

Lomandra longifolia

Lomandra nana

e *Xanthorrhoea arenaria*

Xanthorrhoea australis

e *Xanthorrhoea bracteata*

XYRIDACEAE

e *Xyris marginata*

e *Xyris muelleri*

Xyris operculata

e *Xyris tasmanica*

ZANNICHELLIACEAE

Lepilaena australis

Lepilaena bilocularis

Lepilaena cylindrocarpa

Lepilaena marina

Lepilaena patentifolia

Lepilaena preissii

ZOSTERACEAE

Heterozostera tasmanica

Nanozostera muelleri

tuberous seatassel

Cumbungi Family

slender cumbungi

great reedmace

broadleaf cumbungi

Grasstree Family

sagg

dwarf mat-rush

sand grasstree

southern grasstree

shiny grasstree

Yelloweye Family

alpine yelloweye

roundhead yelloweye

tall yelloweye

tasmanian yelloweye

Watermat Family

southern watermat

smallfruit watermat

longfruit watermat

sea watermat

spreading watermat

slender watermat

Grasswrack Family

tasman grasswrack

dwarf grasswrack

Gymnospermae

Gymnosperms, plants with naked seeds (conifers etc.)

CUPRESSACEAE

e *Athrotaxis cupressoides*

e *Athrotaxis Xlaxifolia*

e *Athrotaxis selaginoides*

e *Callitris oblonga* subsp. *oblonga*

Callitris rhomboidea

i *Cupressus arizonica*

i *Cupressus macrocarpa*

e *Diselma archeri*

Cypress Family

pencil pine

hybrid pencil pine

king billy pine

south esk pine

oyster bay pine

arizona cypress

monterey cypress

dwarf pine

PINACEAE

i *Pinus radiata*

Pine Family

radiata pine

PODOCARPACEAE

e *Lagarostrobos franklinii*

e *Microcachrys tetragona*

e *Pherosphaera hookeriana*

e *Phyllocladus aspleniifolius*

Podocarpus lawrencei

Plumpine Family

huon pine

creeping pine

drooping pine

celerytop pine

mountain plumpine

Pteridophyta

Ferns and Fern allies

ADIANTACEAE

Adiantum aethiopicum

Anogramma leptophylla

Cheilanthes austrotenuifolia

Cheilanthes distans

Cheilanthes sieberi subsp. *sieberi*

Pellaea calidirupium

Pellaea falcata

Maidenhair Family

common maidenhair

annual fern

green rockfern

bristly rockfern

narrow rockfern

hotrock fern

sickle fern

ASPLENIACEAE

Asplenium appendiculatum subsp. *appendiculatum*
Asplenium bulbiferum subsp. *gracillimum*
Asplenium flabellifolium
Asplenium flaccidum subsp. *flaccidum*
Asplenium hookerianum
Asplenium obtusatum subsp. *northlandicum*
Asplenium trichomanes subsp. *quadri-valens*
Asplenium trichomanes subsp. *trichomanes*
Pleurosorus rutifolius

ATHYRIACEAE

Cystopteris tasmanica
Diplazium australe

AZOLLACEAE

Azolla filiculoides

BLECHNACEAE

Blechnum cartilagineum
Blechnum chambersii
Blechnum fluviatile
Blechnum minus
Blechnum nudum
Blechnum patersonii subsp. *patersonii*
Blechnum penna-marina subsp. *alpina*
Blechnum vulcanicum
Blechnum watsii
Doodia australis
Doodia caudata

CULCITACEAE

Calochlaena dubia

CYATHEACEAE

Cyathea australis
Cyathea cunninghamii
Cyathea Xmarcescens

Spleenwort Family

narrow spleenwort
mother spleenwort
necklace fern
weeping spleenwort
maidenhair spleenwort
shore spleenwort
limestone spleenwort
dolerite spleenwort
blanket fern

Ladyfern Family

brittle bladderfern
southern ladyfern

Azolla Family

pacific azolla

Waterfern Family

gristle fern
lance waterfern
ray waterfern
soft waterfern
fishbone waterfern
strap waterfern
alpine waterfern
wedge waterfern
hard waterfern
common raspfern
small raspfern

Rainbow fern Family

rainbow fern

Treefern Family

rough treefern
slender treefern
skirted treefern

DENNSTAEDTIACEAE

Histiopteris incisa
Hypolepis amaurorachis
t *Hypolepis distans*
Hypolepis glandulifera
Hypolepis muelleri
Hypolepis rugosula
Pteridium esculentum

DICKSONIACEAE

Dicksonia antarctica

DRYOPTERIDACEAE

Lastreopsis acuminata
Lastreopsis hispida
Polystichum proliferum
m *Polystichum vestitum*
Rumohra adiantiformis

GLEICHENIACEAE

e *Gleichenia abscida*
t *Gleichenia alpina*
Gleichenia dicarpa
Gleichenia microphylla
Sticherus lobatus
Sticherus tener
Sticherus urceolatus

GRAMMITIDACEAE

Ctenopteris heterophylla
Grammitis billardierei
e *Grammitis garrettii*
t *Grammitis gunnii*
Grammitis magellanica subsp. *nothofageti*
Grammitis poeppigiana
t *Grammitis pseudociliata*

Groundfern Family

batswing fern
southern groundfern
scrambling groundfern
downy groundfern
harsh groundfern
ruddy groundfern
bracken

Dicksonia Family

soft treefern

Shieldfern Family

shiny shieldfern
bristly shieldfern
mother shieldfern
prickly shieldfern
leathery shieldfern

Coralfern Family

dwarf coralfern
alpine coralfern
pouched coralfern
scrambling coralfern
spreading fanfern
silky fanfern
umbrella fanfern

Fingerfern Family

gypsy fern
common fingerfern
sandstone fingerfern
creeping fingerfern
beech fingerfern
alpine fingerfern
hairy fingerfern

HYMENOPHYLLACEAE

- Crepidomanes venosum*
- Hymenophyllum australe*
- Hymenophyllum cupressiforme*
- m *Hymenophyllum falklandicum*
- Hymenophyllum flabellatum*
- Hymenophyllum marginatum*
- Hymenophyllum peltatum*
- Hymenophyllum rarum*
- e *Sphaerocionium applanatum*

ISOETACEAE

- Isoetes drummondii* subsp. *drummondii*
- e *Isoetes elatior*
- e *Isoetes gunnii*
- e *Isoetes humilior*
- Isoetes muelleri*
- e *Isoetes* sp. nova "Maxwell River"

LINDSAEACEAE

- Lindsaea linearis*
- Lindsaea trichomanoides*

LYCOPODIACEAE

- Huperzia australiana*
- Huperzia varia*
- t *Lycopodiella diffusa*
- Lycopodiella lateralis*
- Lycopodiella serpentina*
- Lycopodium deuterodensum*
- Lycopodium fastigiatum*
- Lycopodium scariosum*
- Phylloglossum drummondii*

MARSILEACEAE

- i *Marsilea mutica*
- Pilularia novae-hollandiae*

Filmyfern Family

- bristle filmyfern
- southern filmyfern
- common filmyfern
- falkland filmyfern
- shiny filmyfern
- bordered filmyfern
- alpine filmyfern
- narrow filmyfern
- skeleton filmyfern

Quillwort Family

- plain quillwort
- tall quillwort
- stout quillwort
- veiled quillwort
- common quillwort
- limestone quillwort

Screw fern Family

- screw fern
- oval wedgefern

Clubmoss Family

- mother clubmoss
- long clubmoss
- buttongrass clubmoss
- slender clubmoss
- bog clubmoss
- conifer clubmoss
- mountain clubmoss
- spreading clubmoss
- pygmy clubmoss

Nardoo Family

- smooth nardoo
- australian pillwort

OPHIOGLOSSACEAE

- x *Botrychium australe*
- Botrychium lunaria*
- Ophioglossum lusitanicum* subsp. *coriaceum*

OSMUNDACEAE

- Todea barbara*

POLYPODIACEAE

- Microsorium pustulatum* subsp. *pustulatum*

PSILOTACEAE

- Tmesipteris elongata*
- Tmesipteris obliqua*
- Tmesipteris parva*

PTERIDACEAE

- Pteris comans*
- Pteris tremula*

SCHIZAEACEAE

- Schizaea asperula*
- Schizaea bifida*
- Schizaea fistulosa*

SELAGINELLACEAE

- Selaginella gracillima*
- Selaginella uliginosa*

THELYPTERIDACEAE

- Pneumatopteris pennigera*

Adders-tongue Family

- parsley fern
- moonwort
- adders-tongue

Kingfern Family

- southern kingfern

Kangaroo fern Family

- kangaroo fern

Forkfern Family

- narrow forkfern
- common forkfern
- small forkfern

Brake Family

- netted brake
- tender brake

Combfern Family

- rough combfern
- forked combfern
- narrow combfern

Spikemoss Family

- tiny spikemoss
- swamp spikemoss

Lime fern Family

- lime fern

Notes

A series of 20 horizontal green lines for writing, spaced evenly down the page.

A series of horizontal lines for writing.

Handwriting practice lines consisting of 20 horizontal green lines spaced evenly down the page.
