Farm Business Resilience Program

Be future ready.

Phase 1 FBR Program

Outcomes and Achievements

The Future Drought Fund **Farm Business Resilience** Program in helping farmers across Tasmania build the skills and confidence to manage risk and plan for the future. During Phase 1 farmers developed tailored farm business plans to prepare for challenges such as drought and climate variability. These plans reflect each farm's unique enterprise, risks and goals, giving farmers greater clarity and confidence in their decision-making.

The following results show the scale and impact from Phase 1 of the FBR Program across Tasmania.

220
Plans

More than
1,300
people participated in workshops, webinars and industry events.

9%
of Tasmania's farming businesses developed plans

Resilience Plans covered more than
97,000 hectares

96%
of surveyed participants gained more confidence to manage drought or other risks

100%
of surveyed participants had already made changes

75%
of participants included drought strategies in their plans

69%
of plans included natural resource management actions.

Farmer Testimonials

Real stories. Real impact.

> "The program helped us step back and see the big picture. We've built a more resilient business and created space for our family and future."

> "Putting a clear plan in place gave us direction and structure for the business and for how we work and live."

> "We've improved our systems, grown with confidence, and made time for what matters most, our family."

> "It was a turning point. We restructured the business, clarified our goals, and feel more in control of where we're heading."

> "Gave us clarity and confidence to move forward."

> "Helped us plan for the long term, not just the next season."

> "Created space for family and the next generation."

> "From overwhelmed to in control."
