Subject: G.M moratorium

Dear Minister,

The purpose of this short email is to lend my support for the continuation of the ban of growing G.M crops in Tasmania. Current trends indicate a competitive advantage is to be had in keeping Tasmania G.M free.

When the so called Green revolution occurred world wide in the 60 s at the behest of the big players, many of the diverse nutrient dense tough adapted plants were lost. In this age more than ever we need true diversity in the gene pool. This will not be achieved by forcing G.M crops on the grower and the public.

Regards,
Richard Chin
