

**Subject:** Make Tasmania great and a lighthouse for the future  
**Date:** Friday, 26 April 2019 6:02:22 PM

---

A GMO and pesticide free Tasmania would be a lighthouse for the world and THE place to visit for the ever growing number of future minded, eco minded tourists from all over the world.

Short term profit cannot replace reputation and a long term perspective for Tasmania.

Tell me how you decide and I ll come to see what wise politics can achieve.

Robert Herold
