

Keep and Display Herpetofauna at an Educational Facility

FACT SHEET AND APPLICATION FORM

To keep (possess) and display Tasmanian reptiles and amphibians at an educational facility you must hold both a Scientific or Educational Wildlife Permit and a Wildlife Display Permit. Please read this information before completing and submitting your application.

What do these permits authorise?

A Scientific or Educational Wildlife Permit (SoEWP) is issued under Regulation 48 of the *Nature Conservation (Wildlife) Regulations 2021* pursuant to Regulations 36 and authorises the take (catch and collect) and possession of specific species of Tasmanian native reptiles and amphibians subject to certain conditions.

A Wildlife Display Permit (WDP) is issued under Regulation 48 of the *Nature Conservation (Wildlife) Regulations 2021* pursuant to Regulations 40 and authorises the display of wildlife specified on the permit subject to certain conditions.

The SoEWP authorises the employee of an Educational Facility* to keep wildlife onsite at that facility for educational purposes, as well as at their private address.

*Educational Facility, for the purpose of this permit type, means an organisation used for instruction of enrolled students.

Who can apply?

An employee of an educational facility who can demonstrate they have the necessary facilities, skills, and experience to properly care for herpetofauna.

The applicant must be endorsed by an appropriately authorised person of the educational facility.

All applicants must agree to abide by the *Herpetology in Tasmania – Code of Practice*. [Herpetology in Tasmania | Department of Natural Resources and Environment Tasmania \(nre.tas.gov.au\)](#)

How do I apply?

Complete and lodge the application form (not this fact sheet) in person at any Service Tasmania service centre.

A fee is payable for the WDP.

Authorised species

The holder of a SoEWP for herpetofauna is authorised to possess, at any one point in time, up to six (6) specimens of each of the following Tasmanian reptiles and amphibians. (See table 1 for authorised species)

This permit does not authorise the possession of snakes.

What will I receive?

Successful applicants will receive each permit in their name.

Unsuccessful applicants will receive an explanation as to why their application was unsuccessful.

What do I have to do?

Comply with the conditions of your permit.

Blotched bluetongue (<i>Tiliqua nigrolutea</i>)	Southern grass skink (<i>Pseudemoia entrecasteauxii</i>)
She-oak skink (<i>Cyclodomorphus casuarinae</i>)	Mountain dragon (<i>Tympanocryptis diemensis</i>)
White's skink (<i>Liopholis whitii</i>)	Common froglet (<i>Crinia signifera</i>)
Three-lined skink (<i>Acritoscincus duperreyi</i>)	Tasmanian froglet (<i>Crinia tasmaniensis</i>)
Delicate skink (<i>Lampropholis delicata</i>)	Smooth froglet (<i>Geocrinia laevis</i>)
Northern snow skink (<i>Carinascincus greeni</i>)	Banjo frog (<i>Limnodynastes dumerilii</i>)
Metallic skink (<i>Carinascincus metallicus</i>)	Spotted marsh frog (<i>Limnodynastes tasmaniensis</i>)
Southern snow skink (<i>Carinascincus microlepidotus</i>)	Tasmanian tree frog (<i>Litoria burrowsae</i>)
Ocellated (Spotted) skink (<i>Carinascincus ocellatus</i>)	Brown tree frog (<i>Litoria ewingii</i>)
Mountain skink (<i>Niveoscincus orocryptus</i>)	Southern toadlet (<i>Pseudophryne semimarmorata</i>)
Tasmanian tree skink (<i>Niveoscincus pretiosus</i>)	

Table 1 Authorised species under an Educational Wildlife Permit for herpetofauna

Permit reissue

If you wish to continue to keep and display herpetofauna at an educational facility, the attached form must be completed and returned each year.

Duration of permit?

Permits expire on the 31 January annually and do not exceed 12 months in duration.

Animal welfare

The treatment of all animals must comply with the *Animal Welfare Act 1993*.

When capturing, transporting, and keeping reptiles and amphibians the practices adopted must ensure minimal stress is caused to the animal and appropriate animal husbandry is practiced.

NOTE: For some species, husbandry information is available from Wildlife Services.

Biosecurity

The collection of wildlife, such as frogs, should not risk the spread of disease, such as [chytrid](#).

The collection of reptiles and amphibians must not threaten wild populations. All care must be taken to ensure there is minimal disturbance to habitat such as logs, rocks, and water bodies.

Captive held reptiles and amphibians, if released back in to the wild, can pose a biosecurity risk. If there is no other option but to release back into the wild it is essential for the wildlife to be in optimal health. It is important to only release wildlife at their site of capture. Any progeny to be released, must be at their parent's site of capture.

Sick or diseased animals must not be released back into the wild.

Native animals must be kept separate from exotic species.

Returns

The SoEWP has two return requirements upon the expiry of the permit: a Herpetofauna Permit Return Form; and a Herpetofauna Record Form. These forms serve different purposes as detailed below.

The **Herpetofauna Permit Return Form** captures the species and quantities held by the permit holder upon the expiry of their permit.

The **Herpetofauna Record Form** details the change in the number of animals held throughout the validity period of the permit.

The WDP does not require a return.

Further permits will not be granted if return documents for previous permits have not been received.

Useful information

- Laws can be accessed from [Home - Tasmanian Legislation Online](#)

Permit Information

Have you been granted a permit before?

Yes Please provide permit number if known: _____ No

Please list below all animals held upon application.

Species	Number held	Species	Number held

Declarations and important information to read before applying for a permit

Please indicate whether you have been convicted of a 'Relevant Offence' within the period of 5 years immediately preceding the day on which this application is made.

A list of relevant offences determined by the Secretary for the purposes of the definition of relevant offence in Regulation 3(1) of the Nature Conservation (Wildlife) Regulations 2021 can be found at www.nre.tas.gov.au/wildlife-management/forms-permits-and-fees/relevant-offences. Alternatively, a copy of what constitutes a relevant offence can be posted to you by using the contact details found elsewhere on this form.

I HAVE been convicted of a Relevant Offence and I have attached written details

I have NOT been convicted of a Relevant Offence

Please note that when making this application, it is an offence to provide information that you know is false or misleading, or to mislead the Department of Natural Resources and Environment Tasmania by omitting relevant information that you know you should provide. If you have any doubts about whether or not you should provide certain information you should contact the Department of Natural Resources and Environment Tasmania using the contact details elsewhere on this form or seek independent legal advice.

I, the Applicant, declare that:

- the information provided in this application is true and correct; and
- I consent to the collection and use of my personal information in accordance with the Department's Personal Information Protection Policy.
