Rosie Saville:

No a fan of racing

Prefers greyhound welfare, is advocate

Believes Office of Racing Integrity watch over industry

Found Tony Latham very good to work with

Made changes to welfare w greyhounds in Tasmania

But not people within industry implemented the changes

A trainer could put down 70% of his greyhounds

Leon stops her, says can't confirm these facts, careful of identifying individuals:

It was admitted under oath

It's people outside industry that get changes to happen w public

Muzzle law wasn't brought about by industry, was brought about by people like

herself

Same for off-leash areas

If industry really serious about welfare of animals, they would be looking at that

John, Riverside:

OOS
