

To Whom It May Concern,

It is important to note that the information released to you through the Right To Information Request is dated.

The information in this document contains emails dating back several years, and from the previous proponent. The emails are regarding the assessment through the Tasmania Parks and Wildlife Service approval process.

In December 2021 Wild Bush Luxury, a division of Experience Co, took on the previous proponent's business and through that purchase, the South Coast Track proposal.

We are currently working on the proposal, with our first priority being engaging with the Aboriginal communities in Tasmania.

If you would like further information on the proposal, please feel free to be in touch directly on southcoasttrack@experienceco.com.

Yours truly,

A handwritten signature in black ink, appearing to read "Charles Carlow", written over a faint, light-colored signature line.

Charles Carlow
General Manager
Wild Bush Luxury
