

LIST OF CONTENTS

| | | |
|------------------------------|--|-----------|
| Aims of This Document | | i |
| Executive Summary | | ii |
| Glossary of Terms | | v |
| PART I | THE SOUTH ESK BASIN | |
| 1.1 | Catchments and River Systems | 1 |
| 1.2 | Geomorphology and Geology | 2 |
| 1.3 | Climate and Rainfall | 3 |
| 1.4 | Land Use and Degradation | 5 |
| 1.5 | River Biota (Macroinvertebrates) | 6 |
| 1.6 | Community Activities and Perceptions | 7 |
| PART II | WATER ALLOCATION AND USE IN THE SOUTH ESK BASIN | |
| 2.0 | Water Allocations | |
| 2.1 | Hydro Electric Commission | 8 |
| 2.2 | Irrigation allocation from rivers and dams | 8 |
| 2.3 | Town Water Supplies | 9 |
| 2.4 | Riparian Stock and Domestic Rights | 9 |
| 2.5 | Cressy Longford Irrigation Scheme | 9 |
| 2.6 | Future Directions | 10 |
| 3.0 | Water Use | |
| 3.1 | Irrigation | 10 |
| 3.2 | Domestic Water Usage | 11 |
| 3.3 | Stock Water Usage | 11 |
| 3.4 | Power Generation | 12 |
| 3.5 | Farm Dams | 12 |
| 3.6 | Environmental Flows | 12 |
| PART III | Divided into three sections, presenting data collected in each of the major catchments; | |
| | A Meander Catchment | |
| | B South Esk Catchment | |
| | C Macquarie Catchment | |
| A | MEANDER CATCHMENT | 14 |
| A1 | Hydrology | |
| 1.1 | Historical Background | 14 |
| 1.2 | Catchment Yields and Distribution of Flows | 14 |
| 1.3 | Floods | 25 |
| 1.4 | Inputs to Catchment Flows | 25 |
| A2 | Water Quality | |
| 2.1 | Historical Data | 25 |
| 2.2 | Physical Parameters | 31 |
| 2.3 | General Ionic Characterisation | 45 |

| | | | |
|-----------|-----|--|------------|
| | 2.4 | Nutrients | 48 |
| | 2.5 | Microbiological Data | 67 |
| | 2.6 | Heavy Metals | 71 |
| | 2.7 | Special Studies | 75 |
| A3 | | River Ecology | |
| | 3.1 | Macroinvertebrates | 87 |
| | 3.2 | Community Structure | 89 |
| | 3.3 | Fish | 94 |
| | 3.4 | Algae | 94 |
| B | | SOUTH ESK CATCHMENT | 96 |
| B1 | | Hydrology | |
| | 1.1 | Historical Background | 96 |
| | 1.2 | Catchment Yields and Distribution of Flows | 97 |
| | 1.3 | Droughts and Low Flows | 104 |
| | 1.4 | Floods | 108 |
| | 1.5 | The Effect of HEC Regulation | 108 |
| B2 | | Water Quality | |
| | 2.1 | Historical Data | 114 |
| | 2.2 | Physical Parameters | 118 |
| | 2.3 | General Ionic Characterisation | 130 |
| | 2.4 | Nutrients | 130 |
| | 2.5 | Microbiological Data | 148 |
| | 2.6 | Heavy Metals | 148 |
| | 2.7 | Special Studies | 148 |
| B3 | | River Ecology | |
| | 3.1 | Macroinvertebrates | 152 |
| | 3.2 | Community Structure | 155 |
| | 3.3 | Fish | 158 |
| C | | MACQUARIE CATCHMENT | 160 |
| C1 | | Hydrology | |
| | 1.1 | Historical Background | 160 |
| | 1.2 | Catchment Yields and Distribution of Flows | 160 |
| | 1.3 | Floods | 165 |
| | 1.4 | Droughts and Low Flows | 165 |
| | 1.5 | The Impacts of HEC Regulation | 172 |
| | 1.6 | Irrigation Storage | 172 |
| C2 | | Water Quality | |
| | 2.1 | Historical Background | 176 |
| | 2.2 | Physical Parameters | 179 |
| | 2.3 | General Ionic Characterisation | 184 |
| | 2.4 | Nutrients | 187 |
| | 2.5 | Microbiological Data | 201 |
| | 2.6 | Heavy Metals | 207 |
| | 2.7 | Special Studies | 207 |
| C3 | | River Ecology | 207 |

| | | |
|----------------|--|------------|
| PART IV | REFERENCES | 208 |
| PART V | APPENDICES | |
| A | Summary Statistics - Water Quality | 212 |
| B | (i) Commissionial Water Right Allocations | 240 |
| | (ii) Farm Dams | 243 |
| C | Monitoring Site Locations | |
| | (i) Hydrology | 248 |
| | (ii) Water Quality | 249 |
| | (iii) River Ecology | 252 |
