The Director of Racing may grant any licence for such period and upon such conditions as deemed fit. Any licence may be suspended, cancelled, or refused by the Director.

Applicants MUST note:

- Standard processing timeframe is **7-10 working days** for correctly submitted applications, unless the applicant is required to be interviewed by the Director of Racing, which may increase the processing timeframe.
- Lodging an application form and paying the applicable fee **does not** mean that applicants are licensed from that time.
- Applications must be approved by the Director and processed by the Office of Racing Integrity (ORI) before a licence becomes active. ORI will notify applicants in writing following approval or denial of their application.

How can I have my application processed as quickly as possible?

Completed applications are processed quicker than those requiring additional information. Before submitting an application, please make sure:

- all sections of the form have been completed;

How long will it take to process my application?

New Application

ORI receives licence applications daily, which are processed in the order they are received. Processing timeframes vary depending on the type of application and whether additional information is required. The Operations team at ORI will endeavour to give you an idea of the processing timeframe for your application should you request it.

Licence Renewals

ORI commits to ensuring that ALL fully complete applications received by the closing date will be processed in time for the applicant to be relicensed for the following season. Applications received after the closing date will be processed in the order that they are received and may result in applicants being unlicensed for the beginning of the new season.

Your responsibilities

- all interactions between staff and customers occur in a courteous manner;
- staff are treated politely and respectfully;
