

# WATERFOWL IDENTIFICATION TEST PRACTICE ANSWER SHEET

## PRACTICE TEST INSTRUCTIONS

**COLUMN "A" (3 points)** Both parts of the question in Column "A" must be answered correctly to obtain 3 marks for that question (i.e. the species **and** game status). You do not get any marks if you only answer one part in Column "A" correctly (i.e. if you only select the species **or** the game status).

**COLUMN "B" (1 point)** If you cannot answer both parts of the question in Column "A", you have the option of selecting the "Not Sure - Don't Shoot" box in Column "B" to obtain 1 mark. If you select this option more than 5 times, it will be impossible for you to pass the test.

**MARKING SYSTEM** Each question answered correctly in Column "A" is worth 3 marks and in Column "B" 1 mark. You can only answer column A or B, **not both**. To pass the practice test you will need to get at least 75% of the total marks obtainable (i.e. 32 out of a possible 42).

**PROTECTED SPECIES** You will automatically fail if you do not recognise at least one of the several Freckled Duck sequences (this does not apply for Tasmanian regulations).

## Marking your test

If you just want to check if you identified the waterbirds correctly, simply compare your answers to the first four columns below (blue section). If you want to score your results, complete the final three columns (green section).

Give yourself three (3) marks for a correct answer in Column A and zero (0) marks for an incorrect answer. Remember a correct answer in column A means getting the species and game status correct. If you get either of these wrong, the mark is zero. If you answered column B instead of Column A, give yourself one (1) mark.

Add up your score in the total column. **A score of 32 and above means you have passed** the practice test as long as you have also correctly answered at least one Freckled Duck questions. Under Tasmanian regulations, there is no requirement to identify Freckled Duck correctly in order to pass the test.

## Answers: Based on Tasmanian Legislation Only

					<b>Total score</b>	

**Note:** The actual Waterfowl Identification Test contains 22 different questions. There is the same requirement to obtain at least 75% of the total available marks in order to pass that test (i.e. 50 out of 66). You also have to correctly identify at least one Freckled Duck in order to pass. Under Tasmanian regulations there is no requirement to identify the Freckled Duck correctly.

The answer to the example question is: Shoveler (boxes c and n in Column A)
